This is a purely vegetable compound, prepared on strict-

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Profes or, the shave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fasherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the Ameoican public, knowing the tits truly wonderful necicinal virtues in us be acknowledged. It is particularly recommended to those persons whose constitutions may have been imprired by the continuous use of ardent spirits, or other forms of disspation. Generally fostnovaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE—Whosever expects to find this a beverage will be disappointed; but to the sick, the weak and low spirited, it will prove a grateful arcamatic cordial, presented of singular remedial properties.

CAUTION. The great popularity of this delightful Aroma has in foced many imitations, which the public should guard against purchasing. Be not per unded to buy anything itse until you have given Boerhave's Holland hitters a fair real, One buttle will convince you how infiritely so perior it is to all these mitations. all these mitations.

GROVER & BAKER'S FAMILY SEWING MACHINES, Promotes the leisure, health and happiness of home-OFFICES:

No. 71%, Public Square. Nashville, Ten. No. 495, Broadway, New York. No. 18 Summer Street, Boston. No. 161, Chesunt Street, Philadelphia.

Reason why this Machine is Universally

Preferred over All Others. 1 Because it is the only Sewing Machine in the world ever invented, so constructed as to fully meet the demands of families for general

2 It is very simple and is never liable to get Foreign and Domestic Liquors, out of order. 3 It makes a seam which will not rip, though every third stitch is cut.

4 It is not a Shuttle Machine. 5 It sews with two needles, making any length stitch desired. 6 It sews from two ordinary spools, and thus all trouble at winding thread is avoided; while the same Machine can be adapted at pleasure, by a mere change of spools, to all varieties of work. 7 The same Machine runs silk or linen

thread, and common spool cotton, with equal facility 8 This Machine will sew in the sleeves of a coat with the same ease and facility that it sews a straight seam. 9 This Machine can be run to make one

thousand five hundred stitches per minute. 10 The seams are as elastic as the most elastic fabric, so that it is free from all liability to break in washing, ironing or otherwise. 11 The stickes made by this machine are more beautiful than any other made either by

hand or machine. The price of these Machines at office in New York, range from \$75 to \$150: an additional charge of \$10 only is made or each machine over New York prices at office in Nashville, to defray expenses of importation, &c., to Nash-R.
